

WASTEWATER TECHNOLOGY TRAINERS

Transforming today's operators into tomorrow's water quality professionals

Problem of the Day 2014.Dec.25

Thank you all for visiting WasteWater Technology Trainers' (WWT's) Problem of the Day and a special thanks to all of you who have also taken one or more of our classes this year. As we've been saying since we took over WWT, it is a great time to be in the business of water and we are proud of our students' quest for more knowledge and higher levels of certification. Leave us a comment telling us how WWT can better serve you. And we look forward to seeing more of you here or in our classes in 2015!
