

Grade III Operator Certification & Math Review

Eric J. Wahlberg, Ph.D., P.E.
and former Colorado Class A Operator

WasteWater Technology Trainers

WASTEWATER TECHNOLOGY TRAINERS

Transforming today's operators into tomorrow's water quality professionals

Grade III Operator Certification and Math Review Table of Contents

About and Schedule.....	1
Course Outline and Study Guide.....	3
CHAPTER 1. Math Approach—The Solution Bridge.....	13
Area	13
Volume	16
Time (Flow and Volume).....	19
Pounds and Pounds-per-Day.....	20
Wahlbergisms.....	26
Practice Problem Set No. 1.....	27
CHAPTER 2. Wastewater Gases and Constituents	29
Gases of Concern	29
Important Wastewater Constituents (Pollutants)	30
Practice Problem Set No. 2.....	37
CHAPTER 3. Work, Energy, Power and Pumping	41
Work, Energy, and Power	41
Power in Pumping Systems	41
Electrical Costs.....	44
Practice Problem Set No. 3.....	45
CHAPTER 4. Chemicals and Chemical Dosing	51
Polymers.....	51
Percent Solids Recovery (PSR).....	51
Other Chemicals.....	51
Chemically Enhanced Primary Treatment	52
Chemical Dosing	53
Practice Problem Set No. 4.....	57
Homework Problem Set No. 1	63
CHAPTER 5. Developing a Study Plan	69
Developing a Studying Plan	69
Distributed Study Schedule.....	69
Make a Specific Plan.....	71
Other Useful Considerations	71
CHAPTER 6. Primary Clarification.....	75
Infiltration and Inflow	75
Solids	76
Organics	77
Performance.....	79

Practice Problem Set No. 5	81
CHAPTER 7. Anaerobic Digestion	87
Process Objective	87
Microbiology	88
Description	89
Safety and Other Equipment	91
Process Control and Performance	94
Importance of Solids Thickening and Dewatering	97
Volatile Acid Measurement	98
Alkalinity Measurement	99
Practice Problem Set No. 6	101
Homework Problem Set No. 2	107
CHAPTER 8. Thickening and Dewatering	111
Gravity Thickener	112
Dissolved-air Flotation Thickener	115
Belt Filter Press (Dewatering)	117
Dewatering Centrifuge	120
Practice Problem Set No. 7	123
CHAPTER 9. Activated Sludge	129
Process Control	129
Nutrient Removal	137
Modifications	142
Operational Problems	147
Organic and Hydraulic Loading Comparisons	149
Practice Problem Set No. 8	151
Homework Problem Set No. 3	157
CHAPTER 10. Wastewater Treatment Pond Review	161
Pond Math	162
Practice Problem Set No. 9	167
CHAPTER 11. Trickling Filters	173
Filters?	173
Operation and Troubleshooting	174
Math	175
Practice Problem Set No. 10	179
CHAPTER 12. Chlorination Refresh	183
Dose, Demand, Residual	184
Safe Practices	184
Calculations	185
Factors Affecting Chlorination	186
CHAPTER 13. Exam Information and Test-taking Strategies	187
Exam Format	187
Exam Subject Matter	187
Math	187
